SENATOR LODGE SPEAKS

He Declares That the Philippines Should Be Retained.

Hesitation on the Part of America Regarded by the Asiatic Mind as a Proof of Wenkness-An Appeal for the Government to Outline a Definite Policy-The Matter of Buty

Mr. Lodge addressed the Senate at the conclusion of the routine morning business today on the subject of the bill in relation to the supression of insurreceion in, and the government of the Philippine Islands.

"This bill is simple but all sufficient. It makes no declarations and offers no promises as to a future we cannot yet predict. It meets the peed of the present and stops there. The President, under the miltary power, which still controls and must fer some time control the islands, could do all that this bill provides. But it is well that we should have the direct authoriza-tion of Congress and be enabled to meet any emergency that may arise with the sanction of the law-making power, until that power shall decree otherwise. Above all it is important that Congress should assert its authority; that we should not leave it to the Executive acting with the unlimited authority of the war power to go on alone after the conclusion of peace, but that he should proceed under the authority of Congress whatever he does until Congress shall otherwise and more spe-

cifically provide.
"By this bill we follow the well-settled "By this bill we follow the well-settled American precedents of Jefferson and Monroe, which were used still later in the case of Hawaii. To leave the war power unrestrained after the end of war is to abdicate our own authority. This bill is the assertion of Congressional authority and of the legislative power of the Government. To undertake any further or more far-reaching legislation at this time would be in my independ a great mistake. But

and hesitations are to the Asiatic mind merely proofs of weakness, and tend only to encourage useless outbreaks, crimes, just and fearless, impresses such people with a sense of strength and will calm them, give them a feeling of security, and take a different view and are unable to reconcile the acquisition of territory without what they call the consent of the governed with the principles of the Dectaration. Jefferson found no such difficulty, and I cannot but think that he understood the meaning of the Declaration as well as its latest champions and defenders. At all events, I am content to follow him, content to vote for his bill, content to accept this interpretation of what he himself

events, I am content to follow him, content to accept this interpretation of what he himself his wrong those of as wrong those of as wrong those of as who agree with him can console ourselves by thinking that it is perhaps 'better to give and which was administrative of her sister, Lofi, with the performance of these islands and in our bodies in the following in the far East are of a nature to demand the highest and most asgacious statesmanship. I have always thought in reference to our relations with foceign antions, but I think we might well apply his patriotic principle to our dailings with our own insciar possessions, both in the Atlantic and the Pacific. The Philippines should be an American question, not the sport of partys or parties or the subject of party credit on the proposed of the p upon the American people, not upon the Democratic or Republican party. If we fall in dealing with them we shall all alike suffer from the failure, and if we suc ead the honor and the profit will redound in the end to the glory and the benefit of all.

This view no doubt seems visionary. It certainly ought not to be so, and in time I believe it will be accepted. Unfortunate-live it will be discovered two years after the probation. NEWPORT NEWS, Va., March 7.—The

the form of legislation, are a grave mistake. Those which involve us in pleages of independence have the additional disadvantage of being the one sure means of keeping alive war and disorder in the islands. Those who offer them or urge them proceed on the assumption that you can deal with an Asiatic in the same manner and expect from him the same results as from a European or an American. This shows, it seems to me, a fatal mis onception. The Asiatic mind and habit of thought are utterly different from ours. the form of legislation, are a grave mis- whom are dead. Words or acts which to us would show generosity and kindness and would bring peace and order, to an Asiatic mean s'm-oly weakness and timidity and are to him an incentive to riot, resistance, and bloodare neither effective action nor intelligent are neither effective action nor intelligent policy, but the sure breeders of war. policy, but the sure breeders of war.

"If we must abandon the Philippines, let us abandon them frankly. If we mean to turn them over to demestic anarchy of foreign control, let us do it squarely. If we are to retain them, let us do it squarely. If we are to retain them, let us deal room. we are to retain them, let us deal manfully with the problems as they arise, But do not indulge in the unspeakable cruelty of making promises which our successors may be unable or unwilling to fulfill, and which will serve merely to light the flumes of war once more and bring death to hundreds of natives and to scores of American soldiers. Let us not attempt in such a situation and with such responsibilities to

The policy we offer is simple and straightforward. We believe in the frank acceptance of existing facts, and in dealing with them as they are, and not on a theory of what they might or ought to be. We accept the fact that the Philippin Islands are ours today and the control of the Supreme Court of Illinois by which the case of Eliza and George W. Dorr vs. Amy Hunter, will be reviewed here. The Dorrs Islands are ours today and the control of the Supreme Court of Illinois by which the case of Eliza and George W. Dorr vs. Amy Hunter, will be reviewed here. The Dorrs Islands are ours today and the control of the Supreme Court of Illinois by which the case of Eliza and George W. Dorr vs. Islands are ours today, and that we are made a note for \$4,500, payable in the gold responsible for them before the world. The next fact is that there is a war in those islands, which, with its chief in hiding, and no semblance of a government, has gold coin was against public policy, and

Act like magic—strengthening the Mus-cular System, restoring the long-lost Com-plexion, bringing back the keen edge of Appetite, and arousing with the Rosebud of Health the whole physical energy of the human frame. One of the best guarantees to the Nervous and Debilitated is that Beecham's Fills have the Largest Sale of any Patent Medicine in the World, and this has been achieved without the publication of testimonials.

10 cents and 25 cents, at all drug stores

now degenerated into mere guerrilla fight-ing and brigandage. Our immediate duty therefore, is to suppress this disorder, pu an end to fighting, and restore peace and order. That is what we are doing. That is all we are called upon to do in order to meet the demands of the living present. Beyond this we ought not to go by a legis lative act, except to make such provisi that there may be no delay in re-establish-ing civil government when the war ends. The question of our constitutional right and power to govern those islands in any way we please I shall not discuss. No only is it still in the future, but if author ity is lacking the Constitution can be amended. Perconally, I have no doub that our Constitution gives full right and authority to hold and govern the Philip-pines without making them either eco-nomically or politically part of our sys-

"Further than the acts and the policy which I have just stated, I can only give my own opinion and belief as to the fu-ture, and as to the course to be pursued in the Philippines. I hope and believe that we shall retain the islands, and that, peace and order once restored, we shall should re-establish civil government, beginning with the towns and villages, where the inhabitants are able to manage their own affairs. We should give them honest administration, and prompt and efficient courts. We should see to it that there is the court of the surgeon were aroused after an examination, and he reported the case to Health Officer O'Brien. Dr. Wilson informed Dr. O'Brien that he believed the ficient courts. We should see to it that there is entire protection to persons and property, in order to encourage the development of the islands by the assurance of safety to investors of capital. All men should be protected in the free exercise of their religion, and the doors thrown open to missionaries of all Christian sects. The land, which belongs to the reople, and of which they have been robbed in the past, should be returned to them and their titles made secure. We should inaugurate and carry forward, in the most earnest and liberal way, a comprehensive system of popular education.

Development and Home Rule.

Development and Home Rule. "Finally, while we bring prosperity to the islands by developing their resources, we should, as rapidly as conditions will

of time and words upon it. Equally plain is our right under the Constitution, by a treaty which is the supreme law of the land, to hold those islands. I will not argue that the President has done in accordan with his constitutional power and with the law passed by Congress at the last session which recogn zed the necessity of an in-creased army in order to cope with the them, give them a teeting of security, active the many the present of the many the present position of the control of the United States, and does nothing more. The operative and essential part of it is in the very words of the act by which in the very words of Louisiana, and which received his approbation and signature. It was also used by Congress and by President Monroe in 1819 in regard to Florida. I think that in such a case we may safely tread in the feotsteps of the author of the Declaration of Independence. He saw no contradiction inat as a matter of expediency our whole Eastern policy is a costly mistake. I tra-verse both assertions. I deny both propo-

The specifications of the defence were that so much of the act of February 28, 1888, as permitted parties to make special ontracts requiring debts to be paid in old coin, was null and void, and that it colated section 2 of the act of July 14. 1890, declaring it to be the established poli

English Trade Returns.

LONDON, March 7 .- The February trade returns, which were issued today, show that the imports for the month increased £2,035,698. Of this increase over £1,500,-000 was in textiles. The exports for the month increased £3,837,443, of which over £1,200,000 will be in metals, and over £1,-600,000 in raw materials.

PLAGUE IN SAN FRANCISCO

Death of a Chinese Laborer Excites the Health Officials.

A Midnight Post-Mortem Shows Symptoms of the Bubonic Malady. The Whole Celestial Quarter Placed Under Quarantine Until a Rigid Examination Has Been Completed.

SAN FRANCISCO, Cal., March 7.-It is feared that the bubonic plague is here.

Late yesterday afternoon the body of When a Wong Chut King, a Chinese laborer, was removed from the basement of the old dertaker, at 819 Clay Streat. Dr. Wilson, and an assistant police surgeon, was requested case to be one of bubonic plague. The Health Officer sent for Dr. Kellogg, bacteriologist of the Health Department. A post-mortem was held and at midnight President Williamson, of the Board of cided to place the Chinese section under

Bacteriological and microscopic examinations, which require from forty to sixty hours, are necessary to determine a case of bubonic plague, and until these examinations are made the health officials say there is no cause for public alarm. No person other than health or police officials are to be permitted to enter Chinatown. The Health Office also gave orders that pursued toward the Philippines. It will no street cars should pass through the suspected district, which shuts off the service of the Sacramento and Clay Street lines,

quarantine until such time as a result of

a thorough examination could be known.

Health Officer O'Brien made this statement: "We have no history of the case, "The foundation of it all is the retention of the islands by the United States. I shall not argue our title to the islands by the picion that it is Asiatic plague, and until law of nations, for it is perfect. No other nation has ever questioned it. It is too in adopting strict precautionary measures. When Dr. Wilson examined the body he found swollen glands in the groins, a symptom of the plague. This excited the docthis point nor the entire legality of all and Bacteriologist Kellogg. We removed a portion of the glands for examination, which resulted in progressive reports after partial tests. These reports aroused suf-

surgeon General Wyman up to noon had received no official despatch from San Francisco concerning the alleged plague case. He wired to the medical officer at that port directing an investigation and report. "It is very natural," said General Wyman, speaking of the report, "that when a Chinaman dies on the Pacific Coast from some cause and plaining agenty, and from some cause not plainly apparent and well known, to attribute his death to the plague. About a year ago when the plagu-was raging in China and Japan, reports

Liston C. Ketchum Petitions for Review of a Divorce Case.

BALTIMORE, March 7.-The suit in the Circuit Court brought by Liston C. Ketchum against Mrs. Laura Richardson Ketchum, from whom he has been divorced, for the custody of their child, was post poned yesterday in the hope that an amicable settlement may be reached out of court. Mr. Ketchum was married to Miss Richardson on Christmas Day, 1894, in Brattleboro, Vt., without the knowledge of her parents. Mrs. Ketchum shortly after wards went abroad with her parents, the narriage being kept a secret. Subsequenty Mr. Ketchum, while residing in Balti-nore, was granted a divorce on the ground of abandonment and the decree of di-orce was affirmed. Mrs. Ketchum shortly fterwards was married to Lieutenan ilian L. Latimer, of the United State

Recently, upon the ground of newly dison for a review, alleging that at the time filed the bill for divorce he was unaware at his wife had given birth to a daugh-Whether Mr. Ketchum exercised due tiligence in not discovering the birth of he child is one of the principal grounds now interposed against a review of the de-cree. Another phase of the case is the suit now pending in the City Court against Mr. Richardson, in which Mr. Ketchum sues for \$50,000 damages for the alleged alienation of his wife's affections
